

## FUEL APPLICATOR SPRAY FOR PETROL ENGINES

- Product properties:** Cleans the entire air intake system on petrol engines. This unique product is vaporised by the Applicator and flows through the air intake system cleaning inlet tracts, valves and combustion chambers resulting in smoother running, improved fuel economy and reduced exhaust emissions.
- Applications:** Automotive service
- Instructions for use:** Spray onto the parts to be cleaned, while the engine is warm and running.
- Notice:** Extremely flammable. Vapours may cause drowsiness and dizziness. Irritating to eyes and skin. Harmful: danger of serious damage to health by prolonged exposure through inhalation. Keep out of the reach of children. Do not breathe spray. Use only in well-ventilated areas. Wear suitable protective clothing and gloves.
- Frost-susceptible:** No
- Material contents:** Solvents, alcohols
- Available container sizes:** 500 ml aerosols can (33139)  
Other container sizes are available upon request.
