## PRO-TEC Diesel Conditioner & Anti-Gel

### Product properties

High Performance Diesel System Care for diesel-flow improvement.  
Winter safe up to -33 °C.

- prevents thickening of the diesel fuel in extreme coldness
- increases working reliability especially in winter
- prevents blocking of the fuel filter and fuel lines
- ensures a better cold start behaviour and smooth warmup running
- ensures optimised lubrication of all movable parts in diesel engines

### Area of application

Suitable for all diesel powered engines with either common rail or pump-injector systems.  
Recommended for engines with turbo, catalytic converter or particle filter.

### Application

Product should be applied to the diesel system at temperatures above 0 °C prior to filling up the fuel tank. Make sure to add the product before gelling of the diesel fuel.

### Consumption per vehicle

375 ml sufficient for up to 80 ltrs. diesel.

### Working time

Works during operation

### Available container sizes

	car		truck		
	375 ml	5 lt	10 lt	20 lt	200 lt
Art.-No.	P2001	P2002	P2008	P2007	P2005
